

Summary

I specialize in ReactJS and JavaScript for Frontend Web development, where problem-solving, critical thinking, and responsive design are my strengths. I'm passionate about learning new technologies and exploring different cultures, which keeps me growing. I'm also proficient in Python for software development and data structures, bringing versatility to my skill set.

Education

United University Prayagraj
Bachelor of Computer Application
2022 – 2025

Army Public School
High School

Skills

- React JS, JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, Responsive Design, UI/UX design, Node JS
- Python, SQL, Database, C, Java
- Machine learning, Data science, Data visualization, IBM Cognos
- Problem solving, creative thinking
- Detail-oriented and able to handle multiple tasks simultaneously
- Good Communication and team work.

Achievements

- **Winner, Hackathon Uhack2.0:** Secured first place and a prize of 20,000 INR.
- **Top Teams, GDSC Solution Challenge:** Selected among the top teams in Delhi.
- **Lead Organizer, University Hackathon:** Led the organization of a major university hackathon.
- **Winner, Tech Startup Pitch Competition:** Won the startup pitch competition.

Projects

Web Development

- **Hackdiwas Website:**
Developed a comprehensive website for a hackathon organized by my team and me at the university.
Technology: HTML, CSS, JS
- **Portfolio Website:**
Created a personal portfolio website showcasing my skills and projects.
Technology: HTML, CSS, JS
- **Women Empowerment:**
Designed and built a website to provide a platform for empowering women.
Technology: HTML, CSS, JS

Python

- **Desktop Chatbot:**
Developed a voice-enabled chatbot using Python and OpenAI API for desktop applications.
Technology: Python, Open AI API
- **Encoder Decoder:**
Implemented a secure chat application using Base64 hashing with Python for encoding and decoding messages.
Technology: Python, Base 64
- **NYC Vehicle Case study:**
Conducted a comprehensive analysis and visualization of vehicle data from New York City to uncover trends and insights.
Technology: Data Visualization, IBM Cognos

Certifications

- Web development Udemy
- Problem Solving intermediate Hackerrank
- Python Udemy
- Data science IBM
- Data visualization IBM
